

# 2019 International Conference of Korean Dementia Association IC-KDA 2019

*Exploring the Novel Concept of Alzheimer's Disease and Other Dementia*

**May 31<sup>st</sup> – June 1<sup>st</sup> 2019**

The-K Hotel Seoul, Korea

## Welcome Message from ICKDA

On behalf of the Korean Dementia Association (KDA), it is my great pleasure to cordially invite you to the 2019 International Conference of Korean Dementia Association (IC-KDA 2019) which will be held at The-K Hotel, Seoul, Korea from 31<sup>st</sup> May ~ 1<sup>st</sup> June, 2019.

Our mission of IC-KDA is to establish an active collaboration of clinicians, researchers and neuropsychologists from the basic, translational and clinical science who will promote new research discovery in dementia and related disorders, providing an opportunity for communicating with colleagues and professionals while offering a fantastic opportunity for academic and cultural experiences.

The landscape of dementia is continually evolving so we believe the theme of this meeting "Exploring the novel concepts of Alzheimer disease and dementia" is quite appropriate in that it will be a time to exchange discoveries and ideas.

The scientific program will be for two days and will be rich with discussions of the latest issues and advancements in the field of dementia. Important issues of scientific session of IC-KDA 2019 include advances and updates on Neuroimaging, Biological markers, Neuroinflammation, Genetics and Neuropsychology.

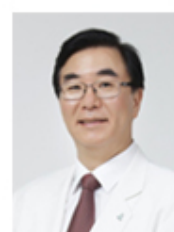

We expect that more than 400 delegates from different countries will participate in the conference. Travel grants and scholarships will be awarded to the young neurologists attending from resource limited countries and submitting high quality abstracts for poster presentation.

I welcome and appreciate all of the brilliant speakers who will be sharing their recent data with all of the participants.

It is my sincerest wish that you will accept our invite and take advantage of this opportunity to enjoy a time of learning and sharing in the city of Seoul.

Warmest regards,

**Seung H Kim. MD, PhD.**  
President, Korean Dementia Association  
Chair, IC-KDA 2019

## Invited Speakers
