

International Conference for 50th Anniversary of the Korean Society of Adult Nursing

VIRTUAL

Shaping the future : Pivoting for priority

August 20, 2021 12:00~16:00 (KST)

Welcome message

Dear colleagues,

On behalf of the Korean Society of Adult Nursing, I would like to welcome you to the International Conference for 50th Anniversary of the Korean Society of Adult Nursing, "Shaping the future: pivoting for priority" August 20, 2021.

Megatrends in global healthcare system have diversified the demand for nursing and increased the need to work with multidisciplinary professionals to improve the quality and safety of healthcare services.

In the new normal era of the Corona 19, digitalization of society as a whole and the industrialization of smart healthcare services based on information and communication technology are expected in the health care field.

In order to turn a crisis into an opportunity, it is time to design the future by establishing a strategy based on priorities, preparing a clear direction and a specific roadmap. It is our pleasure to invite you to join us to celebrate and have an opportunity to design and view the future based on priorities.

Sincerely,

Eui Geum Oh, PhD, RN, FAAN

President of the Korean Society of Adult Nursing
